WEEKLY STATUS REPORT

DATE: 2/7/16 – 2/13/16

What I did this week:

- Completed the Project Schedule and uploaded it to Github
- Completed Weekly Status Report
- Installed GUI program (GLADE) onto Aram's computer
- Briefly looked over GLADE reference manual
- Emailed Phillip Wong about borrowing oscilloscope at the beginning of the week – never got a response
- Purchased an oscilloscope on Amazon on Thursday. Should arrive in a week.
- Continued working on Wire Feed Speed code

Any issues I encountered:

- Earlier in the week I ran into issues installing the GUI software onto the computer and status of oscilloscope but I have since resolved these issues by the end of the week

What I will be working on next:

- Install GUI program (GLADE) onto my desktop/laptop computer
- Learn basics of GLADE, build and test widgets
- Determine exactly what we want on GUI and make a template

Notes:

None
